

Programs/Activities :

Being fully aware of the vastness of the scope of these objectives, the foundation envisions to begin its work at a modest scale and intends to gradually widen the range of its activities /involvement in the course of its own growth in terms of experience, credibility, networking and resource base. The details of the activities will be put forward at a later date.

Organizational Framework :

Any individuals willing to participate in and/or contribute toward the fulfillment of the above-mentioned objectives can become a member of this foundation.

A board of directors will be formed from among the foundation members for the purpose of formulating policies and programs of the Foundation. The board of directors will be assisted by a small team of executives for carrying out its programs. In consultation with a lawyer, a detailed statute will be prepared and the foundation will be registered in any one of the states of the US as a nonprofit organization. Until formal leadership bodies are formed as per the statute, the organizing committee will provide the needed leadership to run the ANMF activities.

The Foundation and You :

Since this foundation is still in the preliminary stage of its development, we would like to invite you to actively participate in the birth and proper growth of this organization. Remember that this is a unique opportunity for you to make a difference. Kindly let us know your ideas so that together we might be better able to accomplish the objectives the foundation has set forth.

Contact Addresses:

Arjun Karki, MD
Department of Medicine
University Hospital
750 East Adams St.
Syracuse, NY 13210, USA
