Pediatric Fundamental Critical Care Support Course

June 20 & 21st, 2018

Location: Patan Academy of Health Sciences (PAHS) – Lagankhel, Lalitpur, Nepal

Course Description

Pediatric Fundamental Critical Care Support (PFCCS) course is meant for those interested in learning and reinforcing their existing knowledge in the management of critically ill or injured children. This two-day course will include a balance of didactic lectures and interactive (hands-on) skills stations to help health care providers recognize, stabilize, and care for pediatric patients who are acutely deteriorating.

Target Audience

The course is meant for physicians, nurses, and health care providers who care for critically ill pediatric patients.

Objectives

- Prioritize assessment needs for the critically ill or injured infant and child
- Select appropriate diagnostic tests
- Identify and respond to significant changes in the unstable pediatric patient
- Recognize and initiate management of acute life-threatening conditions
- Determine the need for expert consultation and/or patient transfer and prepare for optimal transfer

Featured Faculty:
